Ashikur Rahman Tuhin

Managing Director,
TAD GROUP

WHO WE ARE

We have more than 22 years of experience in the garments arena.

TAD Sourcing Ltd. under the umbrella of TAD Group. TAD Group's operations are diversified into more than seven different business areas. These include Fashion Trade, RMG, Buying, Engineering, Logistic, Automobiles &, etc.

As Bangladeshi leading apparel sourcing solutions provider, we have helped global brands build and grow their businesses out of the Asian subcontinent

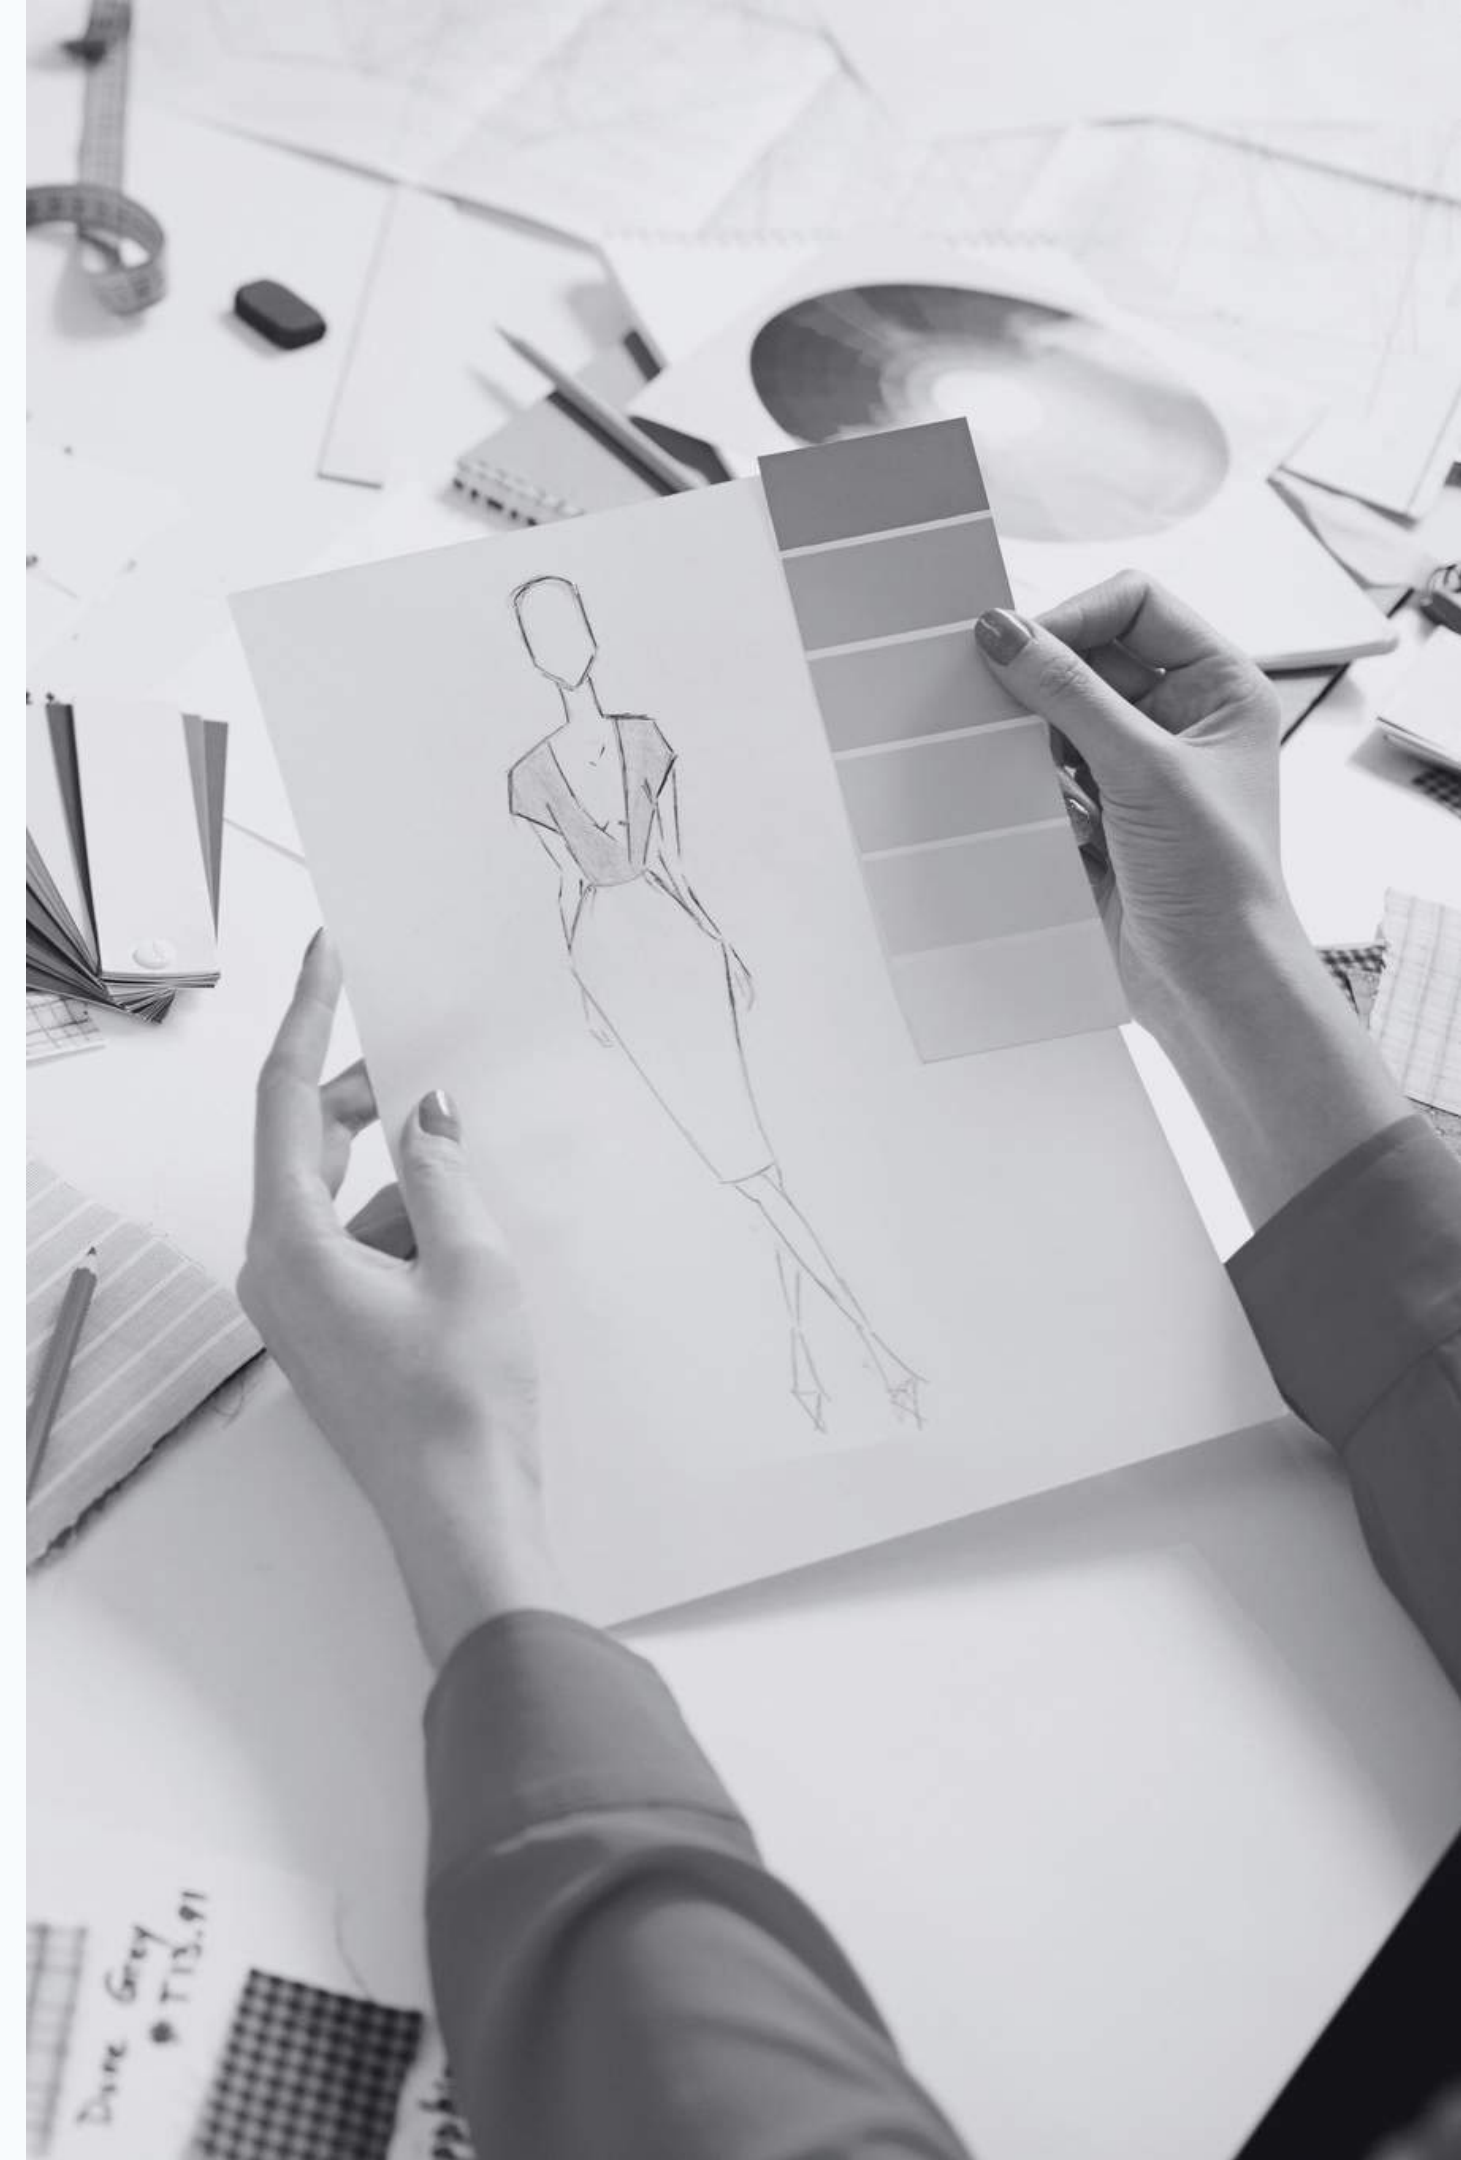

- 7 million garments shipped with 0.023% defect
- 100,000 samples developed last year
- 20,000 styles shipped annually

WHAT WE DO

We Believe on Quality

We want to share with other people. That's why we ask questions until we are sure of what the customer needs. We do not simply fulfill requests. We think ahead about where things are going. We offer creative and technical support at every step, for washes, colors, fabrics, sourcing materials, quality. For fit, design, and product development.

GROWTH IN 2020

Q1 to Q4

We are always prepared to allay to meet the good quality of product at a comparative price and render our best service. we are promised to produce world-class textile and non-textile products of men's, women's, children's, and kids for your hyper supermarket. Our target is to provide the best possible service to secure the order/sampling program by a highly skilled team.

We are proud of the product and the process behind it.

We know how the world of fashion turns. We have good people and good partner factories. It's the people that bring you to a higher level. We are a global fashion company and we love the people we work with. For us, work is only meaningful if you approach it with passion. As a force for good in the world.

We believe in transparency and direct channels in a business that is fast-paced and challenging.

Philosophy

Quality

Control + Assurance

TAD Sourcing puts a lot of emphasis on quality products and quality management. Therefore, the planned and systematic activities are implemented in a quality system so that quality requirements for the garments are fulfilled. Our Quality Assurance also includes management of the quality of raw materials, fabric and color composition, products and components, services related to production, and management, production and inspection processes.

Tested quality control processes along with inspections at regular intervals allow us to deliver orders on time and within the required quality standard (AQL 1.0 – 4.0).

We enforce standards from the start – fabric, trims, processing (printing + dyeing), lab testing (physical + chemical), patterns & fitting, washing, finishing, packing, in-line (10% packed), mid-line (50% packed), final (100% packed).

Our team includes specialized controllers for each different and specific product category. Our controller's base experience comes from having manufactured the products by themselves and knowing everything there is to know about them.

SUSTAINABILITY & INNOVATION

TAD SOURCING RESPONSE

We actively promote and participate in efforts to improve sustainability. It is NOT just fashion that is simply made from sustainable materials. The responsibility goes further than this, and spans across the entire value chain.

Better Cotton Initiative (BCI), making global cotton production better for the people who produce it, better for the environment it grows in, and better for the sector's future.

Oeko-Tex standards, certifying products are free of harmful chemicals and are safe for human use.

Global Organic Textile Standard (GOTS), processing standard for organic fibers, including ecological and social criteria, backed up by independent certification of the entire textile supply chain.

Global Recycled Standard (GRS), intended for companies making and selling products with recycled content. This standard applies to the full supply chain and addresses traceability, environmental principles, social requirements, and labeling.

Compliance

Manufacturing facilities under Tad Sourcing are engineered based on global bench-marked standards. All our facilities are audited and certified to be compliant with the strictest social and environmental requirements and standards.

It is our responsibility to care. What happens is up to alpine as well as the customer. We have to find the safest/compliant and best suppliers possible. Our customers have to be aware that safety and quality must have a slightly higher price. It's unavoidable.

We strictly maintain the basic core areas that social compliance should include are policies on child labor, health and safety, forced labor, compensation, discrimination, working hours, discipline, management systems, and the right to free association and collective bargaining. In addition to these core areas, local culture and government regulations also become a part of social compliance in the industry.

CORPORATE SOCIAL RESPONSIBILITY

CSR

Corporate Social Responsibility

Corporate Social Responsibility - This is a term we take seriously. Not only do we discourage child labor but we have also provided clothes to underprivileged children. Moreover, we also ensure that our women workers are provided with sanitary napkins during their menstruation to facilitate their working potential. Besides, we carry out various activations on special occasions like Earth Day or Environment Day.

As such, the TAD Sourcing Ltd. CSR initiatives include:

- Nutrition & Health Project
- Sanitary Napkin project
- Blanket Project
- Help Underprivileged children
- Orphan School Project
- Childcare Home Project
- Different certificate facilities
- Tree plantation
- Energy saving management.

DESIGN STUDIO

DIGITAL 3D DESIGN & COLLABORATIVE PRODUCT DEVELOPMENT

The goal is to help designers from the limitations of physical prototyping while addressing the industry's priorities of saving time, reducing costs, and eliminating waste.

3D allows designers and pattern makers to make more accurate designs in less time. Showcasing with digital samples enables instant feedback and rapid decision-making because anyone anywhere can take part in garment editing and pricing discussions.

A true-to-life 3D sample increases the reliability of the decision. Using a digitally accurate 3D sample makes it easy to validate and finalize the design process across the organization

Attending International fairs like PV, Texworld, Kingping Magic, UMO, PTTI & etc.
